5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms )

We, Dr D Y Patil School Of Management takes care of the students' development mentally, academically and also on the creativity aspects. We ensure that the two year the students have spent in the institute are worthwhile. Therefore along with the academic development parts we design the curriculum where they get to explore and enhance their creative and interactive aspects also. To fulfil this objective we organize various activities and events round the whole year like induction/orientation program, guest lectures, cultural programs, industrial visits etc.

Starting college can cause much anxiety in the heart of a new college student because of all the unknowns-"What should my specialization be? Will I make any friends? How will I find all of my lectures? Whom do I ask if I have a question?" New student orientation programs are designed to guide students in answering all of these questions. Prior to the beginning of classes, students are given an overview of the complete realm of institute and course life, from academics to social activities, through a period of days referred to as orientation. However, regardless of the nature of the program, three objectives should be present in all orientation programs: 1) introducing students to college life; 2) acclimating students to their new surroundings; and 3) providing an opportunity for the institute to meet the newest members of the community. It is the duty of the coordinator of orientation to design a program that will bring these three goals together.
